

PRECAUTIONARY STATEMENTS

Do not apply this product if bees or other pollinators are foraging in the treatment area.

First Aid

General: Call a poison control center or doctor for treatment advice. Have the product containers or label with you when calling a poison control center or doctor or going for treatment. **If in Eyes:** Call a poison control center or doctor for treatment advice. Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. **If on Skin:** Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before reuse. Call a poison control center or doctor for treatment advice. **If Inhaled:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breathing is irregular or stopped, administer artificial respiration. Call a poison control center or doctor for treatment advice. **If Swallowed:** Call a physician or poison control center immediately. Drink one or two glasses of water. Do not induce vomiting without medical advice. Never give anything by mouth to an unconscious person.

For medical emergencies involving this product call toll-free 1-800-222-1222.

DIRECTIONS FOR USE

Read entire label before using. Use only according to label Precautionary Statements and Directions.

Before buying or using this product read "Conditions of Sale and Warranty" found elsewhere on this label.

Shake Well Before Using

To Kill and Control Mosquitos and Ticks Effectively Kills Mosquitos and Ticks in 24 hours or less.

For Outdoor Fogging and Misting Spray Applications: Change the sprayer head to a fogging/misting head. Shake the product well. Mix 3-6 ounces of this product with one gallon of water, shake well to thoroughly mix, and continuously agitate spray mixture during application. Mix 8-12 ounces of this product with one gallon of water for heavy pest pressure. Do not use any other dilution rates. One gallon of mixture covers 3000-7500 square feet, depending upon vegetative density in the treatment area. For mosquito control, reapply every four weeks (28 days), or as reinfestations warrant. For ticks, reapply as reinfestations warrant. For best results, spray under shrubs, wood piles, leafy areas and anywhere that is shaded and moist. Spray into trees, including up and under the leaves, where adult mosquitoes and ticks hide during the day. Treat harborage areas such as shrubbery and vegetation where mosquitoes/ticks may rest. Shrubbery and vegetation around stagnant pools, marshy areas, pools and shorelines may be treated. May also be sprayed on, and will not discolor, swing sets, patios, eaves, windows, doorways, porches, porch lights and around utility boxes. May also be applied using hand-held, hose-end or backpack-type sprayers by following dilution directions above and sprayer manufacturer directions. Apply during dry weather for best results. Avoid spraying before expected rain. Apply with Alluvion for the advantages of an added sticker.

Do not allow anyone to enter treated areas until spray has dried.

Please Note: For more consistent coverage and potentially better efficacy add **Arkion® Alluvion™ Max Organosilicone Spreader** to **Arkion® Stop the Bites® Plus!**

STOP THE BITES® PLUS!

Advanced Mosquito & Tick Killer
